

NIGERIAN METEOROLOGICAL AGENCY

Central Forecast Office (CFO)

WEATHER OUTLOOK ISSUED ON 05.01.2025 AND

VALID 00:00 06.01.2025 TO 23:59 08.01.2025

FORECAST OUTLOOK:

Monday 6th: In the Northern region, Moderate dust haze with horizontal visibility range of 1 – 5 km is expected during the forecast period. Localized visibility of equal to or less than 1000m is expected over parts of Jigawa, Borno, Yobe, Gombe and Bauchi states all through the forecast period. In the North central region, Moderate dust haze with horizontal visibility range of 1 – 5 km is anticipated during the forecast period. Hazy atmosphere with patches of clouds are expected over the inland states of the South throughout the forecast period. Early morning mist and fog is expected over the coastal cities with slim prospects of localized thunderstorms over parts of Bayelsa and Rivers states during the afternoon to evening hours.

Tuesday 7th: In the Northern region, slight dust haze in good visibility is expected throughout the forecast period. The North Central region is expected to experience Moderate dust haze with horizontal visibility range of 2 – 5 km throughout the forecast period. Hazy atmosphere with patches of clouds are expected over the inland states of the South throughout the forecast period. Early morning mist and fog is expected over the coastal cities with slim prospects of localized thunderstorms over parts of Lagos and Ogun states during the afternoon to evening hours.

Wednesday 8th: Slight dust haze is expected over the Northern region throughout the forecast period. Moderate dust haze is expected over the North Central parts of the country throughout the forecast period. Cloud patches in hazy atmosphere are anticipated over the Southern region of the country.
