WEEKLY WEATHER FORECAST BULLETIN NO: 202504003
ISSUED ON: 22nd APRIL, 2025.
VALID: FROM 22nd APRIL, 2025 TO 28th APRIL, 2025.

REMARKS

During the week, the Madden-Julian Oscillation (MJO) is expected to be weak over the West African region. Good moisture influx and velocity potential are expected to enhance the prospects of Moderate to Heavy rainfall over parts of southern Taraba and Benue states. Moderate rainfall is expected over parts of Oyo, Osun, Ondo, Edo, Delta, Anambra, Imo, Abia, Ebonyi, Bayelsa, Rivers, Akwa Ibom and Cross River states. Low to Moderate is expected over parts of Plateau, Nasarawa, FCT, southern Kaduna, Niger, Kwara, Ogun and Lagos states, while low rainfall is expected in the remaining parts of the country.

Advisory: There are prospects of flash floods on roads, bridges & low-lying areas which can disrupt vehicular traffic. The public is advised to take necessary safety precautions; do not walk through fast-flowing runoff waters.
